LEAD AWARD AT WILLIAM WOODS UNIVERSITY

LEAD

Discover. Connect. Serve.

Leading Educating Achieving Developing

Our LEAD Award rewards you with up to \$5,000 a year* to get involved around campus — attending events, organizing student activities, becoming a LEADer.

Learning equals doing.

While choosing the right major and working hard in class is critical, we know it's the students who get involved beyond the classroom that grow the most in poise and confidence — and find the most success during their four years as an undergraduate.

Since its start in 2000, the LEAD Award has provided more than \$30 million worth of financial assistance to William Woods students.

The LEAD Award is automatically available to all residential and commuter undergraduate students — regardless of financial need — who agree to make a commitment to campus and community involvement.

*"One of the most beneficial programs I've participated in is LEAD. It has helped me expand my horizons and gain cultural education as well as academic. It has been an invaluable experience for me."
~Harrison Jones, William Woods University Student*

Discover.

The LEAD Award is one of a kind. It's designed to give students the chance to try new things, to reach outside of their comfort zones, to get involved in special opportunities. William Woods University students surprise themselves when they discover their passions in unexpected places.

Connect.

Meaningful moments happen at every LEAD event — a senior shares her story to a freshman, a chemistry professor teaches an education major how to make candy in the lab, a lawyer here to lecture shakes hands with his future associate. The LEAD Award tells the tale of a community of learners, where friendships form and people connect in extraordinary ways.

Serve.

A blood drive. A comedy show. A rally for a cause. The opportunity to help others presents itself to William Woods University students on a weekly basis. The list of LEAD events dedicated to service — on campus, in our community of Fulton and across the world — is always growing. And it's easy to get involved.

* Residential undergraduates can earn up to \$5,000/year with a LEAD Award. Commuter undergraduates can earn up to \$2,500/year with a LEAD Award.
